Extract from Project Management Quality Evaluation Report

Period 01 June – 31 August 2023

Prepared by: AcrossLimits Ltd, Malta

1. Conclusion

The aim of this Report is to determine the quality of the Project's activities and to monitor the KPIs for the period 01 June to 31 August 2023. As can be seen from the average weightings, all partners are pleased with the management of the project, and all KPIs have been achieved and some even exceeded, although more time is needed to properly evaluate the effectiveness of the Skills2Day tool.

From a Quality perspective, we are very satisfied with the results especially since the partners showed a great deal of interest in the Quality reports' findings and were willing to consider and implement the recommendations we had made on training courses or other aspects of the project. This has led to a culture of continuous improvement which is fundamental to the success of any Quality Plan.

Apart from this, discussions are currently being held with 4 organisations on the sustainability of the RISE Project..
